

(Draft) THAILAND CONNEXT 2022

14-15 September 2022

Queen Sirikit National Convention Center (QSNCC), Bangkok

Southeast Asia is entering the “digital decade”, especially the Thai digital economy, has grown by 51% from 2020, or is worth up to 30 billion US dollars. This leap in growth is a result of e-commerce that has grown by 68% due to the impact of the COVID-19 situation. Thailand is the land-link and sea-link through Asia Technological hub. Thailand Connex brings the latest technologies in IT and OT industries such as 5G, IoT, AI, industrial control systems, Data Centers, and Smart Cities. World tech and government leaders will share and shape the future of digital businesses. Thailand Connex creates partnership network and updates the latest tech trends for digital business challenges and opportunities in Asia.
